Join us for an insightful virtual presentation on racial health equity, where we will delve into the critical intersections of healthcare and social justice for racialized populations. We will explore the current understandings of what racial health equity is and dive into recent work that has been done to center racial health equity in research.

EQUALITY:

Everyone gets the same—regardless if it's needed or right for them.

EQUITY:

Everyone gets what they need—understanding the barriers, circumstances, and conditions.
