## Older Adults Living Alone Study

Researchers are studying the effects of a coaching and educational program to support older adults with memory concerns who are living alone.

### Home Alone study includes:

- 7 in-home, video, or telephone sessions with a trained coach
- 3 surveys over 6 months
- A final interview, if selected

### Who can join?

- Older adults with memory concerns who live alone
- **And**, do not live in an assisted living, nursing home, group care home, or similar setting that provides care and services
